GROWING SEASON

The 2018 vintage was characterized by excellent climatic conditions throughout the growing season. Temperatures within the historical averages, minimal rainfall, and a larger thermal amplitude compared to previous years resulted in a characteristic growing season for Mendoza. The excellent health conditions of the vineyard allowed for a harvest of high-quality fruit with good color and concentration. The harvest began on February 16 with Chardonnay from Los Árboles, Tunuyán and ended on April 20 with Cabernet Sauvignon from El Peral, Tupungato.

AGING & BOTTLING

Aged for 18 months in new French oak (57%) in combination with second use oak (43%). Bottled in November 2019. Unfined and unfiltered.

TASTING NOTES
