

# FELINO

## Cabernet Sauvignon 2021

### HARVEST

Hand-harvest with shears  
April 7th to April 19th, 2021

### VARIETAL COMPOSITION

100% Cabernet Sauvignon

### APPELLATION

Valle de Uco  
& Luján de Cuyo

### VINEYARD

Vineyards in Valle de Uco (Altamira) and Luján de Cuyo (Perdriel, Vistalba, Agrelo). Altitude between 2,306- and 3,927-feet elevation. Semi-desert climate.

### SOIL

Alluvial soils from different terroirs of Mendoza.

### GROWING SEASON

The 2021 season has been one of the best in the last 10 years. Snowfall during the winter was much higher than the previous year, although it is still below the historical average. The cool summer and the intermittent episodes of rain made the plants vegetate in good conditions and maturity occurred slowly. Areas with rocky soils and good drainage achieved very good concentration and complexity. The harvest began on February with Chardonnay and ended on April with Malbec.

### FERMENTATION AND BOTTLING

Aging in stainless steel tanks, aged in new french oak (8%) for 9 month. Bottled in february 2022. Unfined.

### TASTING NOTES

Deep color and red tones. Aromas of spiced, cherries, red fruit. On the palate the wine is medium bodied, with juicy tannins, pure, generous
